

About:

Logistics is generally the detailed organization and implementation of a complex operation. In a general business sense, logistics is the management of the flow of things between the point of origin and the point of consumption in order to meet requirements of customers or corporations.

We have team of dedicated skilled people across India. We are present at all the major custom ports of India.

We are always ready to take the new opportunity to challenge to provide the best logistics solution to our customers. Anita & Sons Logistics satisfies the increasingly sophisticated needs of international trade through customize dsolutions, seamless and integrated information systems. At Anita & Sons logistics, we pride ourselves on being a solution-based organization and take time to understand each customer's individual business needs.

As a non-asset based organization, we have considerable flexibility when managing customers' supply chains. Due to our relationships with local suppliers and global air and ocean partners, we can provide best service to customers with the best routing and pricing options. Customer Service has a lways been our focus. All our customers receive the same kind of attention round the clock.
